MARINE GRADE

MAGNILUMEN PLUS™

Marine and industrial environments - Offshore drilling rigs, docks, ships, ferry boats, marinas, shipbuilding facilities, ports, harbors, marine terminals, container terminals, shipping yards, and cargo wharfs.

Exposures to harsh conditions like moisture, salt, vibration, and extreme temperatures—challenges where traditional lighting often falls short. Designed specifically for these tough environments.

Superior durability, energy efficiency, and long-lasting performance, with its rugged, corrosion-resistant construction ensuring reduced maintenance, simplified and enhanced safety and visibility.

Magnilumen Plus™ Marine Grade – Key Features

- IP67-Rated Drivers
- Conformal Coated LED Bars for Ocean Air Protection
- Waterproof Connectors
- Easy, Tool-Free Installation
- Emergency Kits Available
- High-Lumen Retrofit Solution
- Up to 10,000 Lumens per LED Bar

Built for performance. Ready for the elements.
